

Hello,

I get many requests about event. Invitation is coming this week organizer today is making final testing of extreme class for new configuration of track.

Main things to know about Riga:

Very beautiful, clean and safe place to be!!! My suggestion is to take extra day or two to explore old Riga which is more than 800 years old!!! I will write separate places which you can visit and I am sure that all of you will enjoy our city as we do.

If people are coming with campers then they are free to stay in track as in track they have full setup for camping and they have very good café in Track.

If people want to book hotel then most popular way in Latvia is to use [www.booking.com](http://www.booking.com) there is plenty of options where it is possible to stay from cheaper to more expensive. Booking hotel always keep in mind that it is better to book hotel with guarded parking place as in any big town there is some places where you need to have extra attention what you leave in car!!!
